

Symbols Chart, to assist website design

~~~~~

### Symbols Chart:

Below you will find a chart that shows how to get certain symbols to show up on your html page:

|                                                                            |               |               |               |               |               |               |               |
|----------------------------------------------------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|---------------|
| ~"~{1}~",,~1~10#5%~{1}~+{3}~{1}~"                                          |               |               |               |               | €             | <             | >             |
| The characters above do not require encoding.<br>Cut and paste them as-is! |               |               |               |               | &#p;          | &lt;          | &gt;          |
| €                                                                          | •             | •             | f             | •             | • • •         | †             | ‡             |
